# Golden Cross

The Golden Cross was built in 1583, on the site of the old  
Coventry Mint. Coventry mint operated from 1466 to 1470  
and produced royals, half royals, silver groats and half groats.  
The building was first mentioned as an Inn in 1661, making it  
the oldest pub in the city centre. It underwent renovations in  
the 19th century, using timber from the original St Michaels  
Bell tower. The Beams are still intact and visible in the pub. The  
typical Tudor style also features a dragon beam, which is a  
diagonal beam that allowed the jettied upper floors to go round  
a corner.

Here at the Golden Cross, we have made it our mission to cater  
for people with dietary requirements. We started off with a  
couple of gluten free options and gradually made the whole  
menu accessible to coeliacs, offering them more choice than  
they are used to. As we make all of our dishes on site, if anyone  
has any specific requirements we will do our best to cater for  
them.
